

## **Car Parking**

Most schools have parking issues and ours is no different! We ask you put pedestrian safety first and park with consideration for others.

## **Community Involvement**

Parents at Governors Bay School are involved in lots of different ways. We have an active Parent and Teacher Association who meet regularly throughout the year. You are warmly welcomed to join. They assist with substantial fund raising activities and provide an important link between home and school. It is an excellent way to meet other families and contribute to your school community. You can find details about these meetings on our website and dates are in the weekly 'Update' school newsletter. Parents are invited to accompany classes on school trips and to assist with school events. Please let your class teacher know if you have any special talents to share with us or if you would like to help in classroom, library, the gardens or on the sports field.

## **Computer Literacy**

Children have access to computers/iPads in their classrooms. The computers are used as one learning tool within the normal class programme and all Internet access is supervised. All students have a digital use agreement which has been shared with you and this forms the basis of understanding for all students about responsible use and Digital Citizenship.

## **Contact**

Please ensure the office always has up to date phone and address(es) details in case we need to contact you. Please note: students are not permitted to use the school phone unless it is an emergency.

## **Communication**

Communication between teachers and parents is encouraged. E-mail is an effective communication and each teacher has a school e-mail address they check regularly. You will find their contact details in the Staff page on our website. The Principal is always happy to meet with parents and an appointment can be made by telephoning the school office.

## **Camps**

All students in years 4-8 have an annual overnighting camp experience. Information regarding this is shared with families at the start of the year.
